

Applying Cotton Tube Gauze (Meditube™)

Fingers-Toes-Arms

Step 1)

Place a generous amount of Meditube onto plastic or steel applicators

Step 2)

Insert finger or toe inside applicator

Step 3)

Place Meditube onto fingers or toes (applicator is still on finger/toe)

Step 4)

Slowly remove applicator while holding Meditube on finger or toe

Step 5)

Carefully cut Meditube with scissors

If a Second layer is desired, reapply by starting with Step 1
